BOOK DESCRIPTION

The book you are holding is a starting point for those who want to gain command of the Greek language, understand the Greek soul and be initiated into the Greek culture. It is a groundbreaking travel guide to Greece and at the same time it is a communication and pronunciation guide, an understanding-the-Greek-culture guide and a guide that offers practical tips for every chaday life in Greece.

It is a **communication guide** because it includes useful words and phrases as well as extra Greek vocabulary that can be used by foreign language speaking visitors in Greece to cover basic communication needs such as speaking and understanding Greek. This will help them deal with everyday language challenges successfully and with confidence while in Greece.

It is a **pronunciation guide** as all words are presented in both their written form and pronunciation. International Phonetic Alphabet (IPA)*symbols are used so that words are pronounced as accurately as possible. This will help speakers be precise and avoid misunderstandings due to errors in pronunciation. Any other transcription of phonetic symbols is arbitrary.

It is a **guide in the Greek culture** because it provides information about the customs and traditions, the mentality and everyday life routines of modern Greeks helping visitors to get accustomed to, understand and decode the Greek way of life and behaviour.

Finally, it is a **practical guide** as it offers a wide array of additional useful tips about everyday life that complete what one needs to know before and during their visit to Greece, in order to experience a pleasant stay.

Learners can also find extra practice exercises for every Unit in order to test themselves and see what they have learned.

** The IPA is a system of phonetic notation. It was devised by the International Phonetic Association as a standardized system of speech sounds and is based mainly on Latin and partially Greek script. The IPA symbols can be used to present the pronunciation of each word in any language. In this book the IPA symbols are used to explain the pronunciation of Greek words with accuracy. The IPA symbols that you will learn in Units 1, 2 and 3 of the book are a one-to-one correspondence between the symbols and the sounds found in the Greek language.*

BOOK STRUCTURE

There are 16 units in the book with helpful vocabulary and tips that cover 13 different situations in which you may find yourself during your stay in Greece. In the **first part** you can find useful words and phrases, information about the Greek culture and practical tips that follow the theme of each unit. The **second part** offers extra vocabulary while in the **third part** you can find practice exercises to check your knowledge.

UNIT STRUCTURE

Each unit is independent; it is not connected with the previous or the following unit and can be studied separately. At the beginning of each unit (orange board) you can find a **summary** of the unit which is then followed by a **detailed presentation** (vocabulary, phrases, sentences). At the end of the unit (purple board) you can find comprehensive **examples**. Rich cultural **information** and useful **tips** along with relevant icons complete the theme of each unit.

HOW TO READ THE BOOK

The bold blue IPA symbols in brackets represent the pronunciation of the Greek words, modified to suit the needs of the book.

e.g. [**protoxroñá**]

The bold red italics are used for the English words, phrases and sentences that are translated into Greek and the Greek pronunciation is given.

e.g. ***New Year's Day*** [**protoxroñá**]

The black fonts are used for the translated words, phrases and sentences into Greek.

e.g. ***New Year's Day*** [**protoxroñá**] Πρωτοχρονιά

Notes

- For borrowed words, the pronunciation closest to the original was selected.
e.g. For the word ***champagne*** the transcription is [**sampáña**]
- The parentheses in italic black font inside the brackets include:
 - The number symbol of the preceding number word.
e.g. ***eight pork skewers***: [**oxtó (8) suvláka x̃iriná**]
 - Monetary value.
e.g. ***€6 please***: [**éksi evró (€6) parakaló**]

Accent mark

The accent mark is placed over the stressed vowel. One-syllable words which do not carry an accent mark according to Greek grammar rules, are transcribed with an accent mark when the vowel is stressed in pronunciation.

e.g. και [**k̃é**] ***and***

*The letter «Σ, σ» has three different forms compared to the rest of the letters of the Greek alphabet which have two. These forms are:

1. «Σ» (upper case)
2. «σ» (lower case – inside a word)

The Greek letter «Β, β» is pronounced [v] NOT [b]

The Greek letter «Ρ, ρ» is pronounced [r] NOT [p]

The Greek letter «Χ, χ» is pronounced [x], [x̣] NOT [ks]

How to accent Greek words

When you see a letter carrying this mark (´), you should pronounce this letter louder. This mark is called **[tónos]** in Greek and “accent mark” in English. Stressing Greek words is very important. If you stress a word in a wrong way its meaning will change.

For example, the Greek word «πότε» [póte]:

- ✓ If you stress the letter [o] «πότε» [póte] it means “when” **BUT**
- ✓ If you stress the letter [e] «ποτέ» [poté] it means “never”.

In the next unit you will learn the **CONSONANT DIGRAPHS** and the **DOUBLE CONSONANTS**.

Greek pronunciation guide Part 3 (Consonant Digraphs, double Consonants)

If you want to say “*I’d like to pay for the room and check out.*”, you say:

[θα íthela ná pliróso to loyarjazmó ðe na afíso to ðomátio]

Θα ήθελα να πληρώσω το λογαριασμό και να αφήσω το δωμάτιο.

If you want to ask “*Can I leave my baggage here until...?*” you say:

[boró ná afíso tis aposkēvés mu eðó méxri...?]

Μπορώ να αφήσω τις αποσκευές μου εδώ μέχρι...;
